

Vanderbilt Orthopaedic Society

August 15, 2007

Dear VOS Members,

We recently concluded another successful Vanderbilt Orthopaedic Society meeting in Sandestin, Florida and our thanks go out to President Laura Meyers, Ray Lowery, Ginger Holt and Herb Schwartz for their contributions. Michelle Lennon deserves recognition as always for her efforts on behalf of the Society.

Our graduating residents provided outstanding presentations of their research to the attendees and many alumni gave lectures addressing a wide range of topics. Laura Meyers stepped down as President and I was elected to the office. My main goal for next year is to push the meeting attendance "over the top". We need your support. Historically, Dr. Gurwitz has been an outstanding host and he has graciously agreed to do it again in San Antonio. San Antonio is centrally located and easily accessed from around the country. Please mark your calendars now for 2008. Michelle Lennon will provide you with an update on future meetings and a "call for abstracts" will be made this fall in order to get a jump start on meeting commitments and preparation.

I look forward to seeing everyone in Texas next year.

Sincerely,
R. Christopher Glattes
President, Vanderbilt Orthopaedic Society
